

EDUCATION

The Graduate Center, The City University of New York 2020 - 2022

M.A., Digital Humanities

University of California, Berkeley 2016 - 2020

B.A., Interdisciplinary Studies

Undergraduate Certificate, New Media

EXPERIENCE

MongoDB (Realm); Product Designer July 2020 —

- Helping shape a cohesive user experience for Realm, MongoDB's serverless database and mobile app development platform
- Enhanced Realm's discoverability and educational experience by executing a revamp of the platform's onboarding process, as well as leading the creation of UX and content guidelines across our UI and CLI
- Worked closely with product managers and lead engineers to develop both design and product strategy for some of Realm's key features, namely Realm Flexible Sync and Rules
- Collaborated with Design Systems and UX research to produce cross-platform design solutions, by helping lead the standardization of form design and error message interactions across all MongoDB products.

MongoDB (Compass); Product Design Intern Summer 2019

- Enhanced Compass-to-Atlas user conversion by improving Compass' onboarding
- Worked with Design Systems to create a new toast component
- Developed an interest in UX content strategy by working with Product Marketing and Customer Services to create a "MongoDB dictionary"

The BRAVO Group; Design Research Assistant 2018-2019

- Autonomous vehicle & design thinking research under professors Alice Agogino and Euiyoung Kim. Member of the group's founding cohort. bravo.berkeley.edu

TEACHING

Beyond Design Thinking (NWMEDIA 198); Instructor Spring 2019

Co-taught a student-run course on campus about the relationship between technology, design, and our inherited ideologies. Topics included critical theory, technology studies, design ethics, etc. [View Syllabus](#)
